

HOPOPoP #1st International workshop

November 2023 • France

The HOPOPoP project organizes its first international workshop, dealing with marine protected areas as living labs.

Our aims are to:

- review & confront past experiences (both successes and failures) in the co-design of Ecosystem-Based Management research in MPAs,
- identify future needs and opportunities.

Our guiding questions are:

1. What science is relevant to supporting MPA management? Disciplinary perspectives, observation methods, data, models, local knowledge, ... ?
2. Integration of research in day-to-day operations of MPAs? Dealing with diverging expectations? Approaches to research co-construction?
3. How can research impacts and collaborations be tracked and enhanced?

A workshop organised by:

Organisation team:

Olivier Thébaud - *workshop coordinator* - olivier.thebaud@ifremer.fr

Claire Macher - *co-chair of the HOPOPoP project* - claire.macher@ifremer.fr

Grégory Charrier - *co-chair of the HOPOPoP project* - gregory.charrier@univ-brest.fr

Frédérique Alban – *workshop coordination Team* - frederique.alban@univ-brest.fr

Manuelle Philippe – *workshop coordination Team* - manuelle.philippe@univ-brest.fr

Provisional programme

>>> First Day

12.00: Welcome lunch

13.15: Setting up in room and online

13.30: Workshop introduction

13.45: Self-presentation of workshop participants

International experiences

14.45: Living Labs experiences/projects presentations: German Experience -*Marie Catherine Riekhof*

15.15: Living Labs experiences/projects presentations: Agora AA project & Norwegian Experience- *Vera Helene Hausner*

15.45: coffee break

16.00: Case study presentation: *Canada (Raphaëlle Dancette)*

16.30: Case study presentation: *US experience (Ben Haskell)*

17.00: Case study presentation: *Spain (Os Miñarzos Marine Reserve Manager, Pablo Pita)*

17.45: Case study presentation: *UK (Andrew Bell, Mike Elliott)*

18.30 - 20.00: Aperitif

>>> Second Day

8.45: Setting up in room and online

9.00: Case study presentation: Australia (*Darren Cameron, Fabio Boschetti*)

French Experiences

9.45: Case study presentation: Iroise Marine Natural Park (*Philippe Le Niliot, Martial Laurans*)

10.30: Case study presentation: Marine Natural Park of Arcachon Bay (*Kevin Leleu, Ingrid Peuziat*)

11.15: Case study presentation: Côte Bleue Marine Park (*Eric Charbonnel, Laurence Le Direach*)

12.00: Case study presentation: 7 îles Marine Reserve (*Pascal Provost, Frédérique Alban*)

12.45: lunch

14.00: Working groups organisation

14.15: Working groups - TIME#1

15.15: coffee break

15.45: Working groups - TIME#2

16.45: Working groups - TIME#3

17.45 – 18.30: Debrief (plenary session)

Evening : social diner

>>> Third Day

8.45: Setting up in room and online

9.00: Debrief (plenary session)

9.30: Wrap up and conclusions about “What science is relevant to supporting MPA management? Disciplinary perspectives, observation methods, data, models, local knowledge, ... ?”

10.30: Wrap up and conclusions about “Integration of research in day-to-day operations of MPAs? Dealing with diverging expectations? Approaches to research co-construction?”

11.30: Wrap up and conclusions about “How can research impacts and collaboration be tracked and enhanced ?”

12.30: Looking forward

13.00: closing lunch

This work is supported by ISblue project, Interdisciplinary graduate school for the blue planet (ANR-17-EURE-0015) and co-funded by a grant from the French government under the program "Investissements d'Avenir" embedded in France 2030, the CNRS under the OMER Research Group and a grant from the University of Brest (UFR Droit Eco Gestion).
